

ANICS RETRACTABLE GATE

Folding & Retractable Gates These gates are best suited for the openings facing space constraints or do not have parking space. Along with that if there is a need to divide an area or a partition is required to be done for the internal premises of a campus these gates are surely the optimum available solution.

The ability to save space is one of the main benefits of a retractable gate design. Retractable gates fold up neatly and compactly when opened, unlike sliding gates, which need a track to glide, or swinging gates, which need room to swing open.

- The Gates are design by highly experience designed team.
- All Retractable Gate are manufactured as per international quality standards.
- Made as per customer requirement MS or SS and design as per requirement.
- Opening/Closing method can be as per choise
- Can withstand wind pressure up to 120 Km/hour.
- The Gates are available in various metals structure like Aluminum, Mild Steel & Stainless Steel to suite the specific requirement
- Various safety features are incorporated as per EN standards.
- Advanced drives & controls are incorporate to achieve any safety & operational requirement.
