

ANICS GLASS SLIDING DOOR

ANICS Glass Sliding Door are improve energy efficiency, Safety, productivity and operational flow Automatic sliding doors are very convenient, as they allow people to pass through without having to stop and open the door manually. They are also very safe, as they prevent people from accidentally walking into a door that is closing. ANICS automatic doors can be designed to open and close quickly, which can help to reduce the amount of heated or cooled air that escapes from a building. This can be particularly important in areas with extreme temperatures as it can help to reduce energy costs associated with heating and cooling.

Operating Voltage: 230VAC +-10%,50Hz

Size : Up to 1.5X 2Leaf

Speed :110CM/Sec.

Safety :Photo Sensor for safety
During closing

Open/close : Through Push Button, Remote
Microwave sensor, RF ID etc.

Advanced drives & controls are incorporate
to achieve any safety & operational
requirement.
