

UNCROWNED CREST

Proposal for Collaboration Between Uncrowned Crest and Future University, Bareilly

Introduction

Uncrowned Crest Private Limited, recognized as one of the best IT training institutes, is pleased to present this proposal to establish a strategic collaboration with Future University Bareilly. Our company is also listed as a Placement Consultant in the NSDC Jobx Skill India Project, further strengthening our commitment to bridging the gap between academia and industry by providing students with mentorship, training, and career opportunities.

This MoU will offer students excellent opportunities to enhance their technical skills, particularly in the field of IT. The partnership will introduce new learning pathways and skill development initiatives in Computer Science and Engineering, equipping students with cutting-edge industry knowledge.

Objectives of the Collaboration

- Industry-Academia Interaction: Connecting students with industry leaders for practical insights.
- Technical Skill Development: Specialized training in Computer Science and Engineering.
- Industry Mentorship: One-on-one and group mentorship from experienced professionals.
- Live Projects & Internships: Hands-on experience through real-world projects.
- Career Guidance & Placement Assistance: Industry-standard training and employability support.
- Entrepreneurial Support: Expert mentorship for students interested in startups.

Implementation Plan

1. MoU Signing & Agreement Finalization – Establishing formal collaboration terms.
2. Program Scheduling & Execution – Structuring a roadmap for training, workshops, and mentorship sessions.
3. Student Enrollment & Participation – Encouraging active student engagement.
4. Assessment & Certification – Providing completion certificates for various training programs.
5. Continuous Improvement & Expansion – Periodic reviews and expansion based on feedback and industry trends.

Benefits to College/ University

- Access to exclusive industry mentorship.
- Advanced IT skill development for students.
- Enhanced employability through real-world exposure.
- Strengthened industry connections and collaboration opportunities.
- Recognition as a forward-thinking institution integrating industry expertise into academia.

Next Steps

We look forward to discussing this collaboration in detail and aligning the program structure with the institution's needs. We would be delighted to arrange a meeting to explore how we can best implement this initiative for maximum student benefit.

For further discussions, please feel free to contact us:

Conclusion

Uncrowned Crest Private Limited, recognized as a premier IT training institute and a listed Placement Consultant in the NSDC Jobx Skill India Project, is committed to enhancing technical education by integrating industry expertise into academia. We believe this collaboration will provide immense value to students, faculty, and the institution as a whole. We look forward to working together for a brighter future.

Sincerely,

Adarsh Shukla
