YOUR BUDGET

# WHAT MAKES US DIFFERENT

## OUR DESIGN STRATEGY

---

---

"NATURE HOLDS THE KEY TO OUR AESTHETICS, INTELLECTUAL, COGNITIVE AND EVEN SPIRITUAL SATISFACTION"

In the extreme built environment of INDIA, what makes us different is to bring "NATURE" in our designs and constructions as people are moving away from it.

Our vision is to bring humanity back to its origin that is NATURE. In order to do that we try to bring harmony between inside and outside, being close to true forms by using materials in their original forms.

# OUR PROJECTS

The background image is a high-quality photograph of a contemporary living room. It features a large, light-colored sectional sofa with several dark and light throw pillows. In front of the sofa is a low, dark wood coffee table with a glass top, holding a vase of white flowers and some decorative items. To the right, there are two modern armchairs with a textured fabric. The room has large windows with sheer curtains, and a large abstract painting is visible on the wall. The ceiling has a modern, multi-tiered design with recessed lighting. The overall aesthetic is clean, sophisticated, and minimalist.

## MAJLIS DESIGN

Men Majlis Design is a unique concept. Majlis is generally a place where friends and families get together, talk, socialize, and discuss day-to-day things. It can also be termed as a living room or conference room but of a different style. I always come up with different ideas and hence presenting you the services for Men Majlis Interior Design. I have all kinds of designs such as modern, classic, and contemporary, etc.

### *industrial commercial design*

Industrial design is rising in popularity, not just at home, but also in cafés everywhere. The way a café is decorated is a determining factor in how guests experience a cup of coffee or a dinner. Not only that, but interior design is crucial for the customer's experience of a restaurant or café as a whole. Industrial design is the most popular today for coffee shops: it's budget-friendly and looks nice. Many coffee shops have original brick clad walls, and you needn't hide them: just paint or highlight them somehow. This is what I tried to do with my design.

## Minimalism Is the Key

The ultimate goal for a contemporary home is to have an elegant and classy design. There is minimal furniture in this home with one three seater sofa in a royal blue and one accent chair in a neutral colour. Moreover, the aim is to not crowd this space with too many design elements and to avoid looking cluttered.

## Smart Kitchen

The kitchen area is one of the busy home interior spaces, thus a functional and innovative design is needed to easily provide for the needs of the owners. The innovative home appliances make life easier which perfectly integrates with modern interior design, completes a whole design package. For example, a centrally controlled smart refrigerator, kitchen hood, stove, lightings, and other necessary devices can be incorporated into the design, especially modern and contemporary interior design and this what i did in my design for this kitchen.

## Natural Fusion

This dreamy bedroom redefines comfort. With its pale wooden textured furniture and muted color combinations, this room is a winner. A simple button tufted headboard in pearly white with matching sheets ensure will sleep like a baby.

-An intricate patterned rug lends the perfect finishing touch to this bedroom.
